

It is regrettable that at the time of your annual well woman exam that insurance guidelines restrict us from addressing multiple medical problems. A well woman exam includes preventive care counseling and wellness issues. If you have scheduled today and would like multiple medical problems addressed we can evaluate you today with a problem focused office visit and reschedule your annual exam at a later date that will be convenient for you.

_____ I would like my well woman exam today.

_____ I would like a problem focused evaluation today.
